

## Sri Venkateswara College of Engineering

(An Autonomous institution affiliated to Anna University)

Pennalur, Sriperumbudur (Tk) 602117

### Department of Civil Engineering

#### Action Taken and Relevant Proofs during Implementation of R2022

S. No.	Action to be taken	Action taken	Year	Proof
1	<b>Online Courses:</b> Students may be encouraged more towards online courses offered by NPTEL, SWAYAM, etc., which will motivate and give directions for lifelong learning.	This was started implementing in the R2018 revision itself. Steps will be taken in R2022 to further motivate the students to take-up online courses.	2023	In 2023-24, four students from the third year of civil engineering attended the NPTEL course on 'Municipal Solid Waste Management' and received certificates. <b>Reference:</b> NPTEL Certificates
2	<b>In-plant training:</b> IPT will be made mandatory for the students in R2022. This will encourage students to visit industries at regular intervals and expose them to current industry practices. They should be encouraged to do industry projects in their final year. This will increase the critical thinking and employment potential of the students.	This was already implemented in R2018 and is being continued in R2022 also.	2023-24	In 2023-24, there were 30 students who underwent in-plant training in reputed industries or organizations relevant to civil engineering. <b>Reference:</b> Internship file AY2023-24

Head of the Department/Civil

**Dr. R. KUMUTHA, M.E., Ph.D.,**  
Professor and Head  
Department of Civil Engineering,
