Faculty confirms the strong relevance of the course to the programme and course outcomes to the course content. However, allocation of credits, duration and some participatory contents may be enhanced. Further, faculty expressed their support towards the implementation of Honors and minors and extremely happy with the subjects in each and every vertical.

Alumni highly appreciated the introduction of theory cum practice subjects. Further, they emphasised the incorporation of interdisciplinary courses to relate the current trends and technologies with their core programme with more real time case studies.

Employers highly commended Professor of Practice system and happy that the VLSI course was taught by industry personnel. Further, they all welcomed the Honors and Minor degree and pleased with the specialized verticals introduced to the students.

Action to be taken:

Suggested for more active participation of industries in framing of syllabus for specific courses.

- Recommended to have more specialised courses with core industries for better placement opportunity of the students.
- Mandated to include value added or certificate courses in the industrial specific courses, and industry supported courses.
