Permission Letter

30/07/2024

From

The Coordinators,

Five Days FDP on Exploring Machine Learning and Cyber Security: Tools and Trends Department of Computer Science and Engineering,

Sri Venkateswara College of Engineering,

Sriperumbudur - 602117.

To

The Head of the Department Sri Venkateswara College of Engineering,

Sriperumbudur - 602117.

Respected Mam,

Sub: Permission for conducting "Five Days Faculty Development Program on Exploring Machine Learning and Cyber Security: Tools and Trends" from 05-Aug-2024 to 09-Aug-2024- Reg.

We are planning to conduct a "Five Days Faculty Development Program - on Exploring Machine Learning and Cyber Security: Tools and Trends" from 05-Aug-2024 to 09-Aug-2024. The topics are of great importance to our faculty and students, as they are integral to both teaching and research. Given the current circumstances and the advantages of wider participation, we propose to hold this FDP online. We believe this format will facilitate greater flexibility and access for both the participants and the resource persons.

We kindly request your permission to conduct this online FDP. Your support in this initiative will greatly enhance the knowledge and teaching capabilities of our student and faculty members. Thank you for considering our request. We look forward to your positive response.

Thanking you,

To: Co-Ordinators

Permitted.

130/134

About SVCE

SVCE is a unit of Sri Venkateswara Educational and Health Trust (SVEHT). The Trust was founded on 1st August 1985 at the behest and benian blessings of His Holiness Pujashree Kanchi Kamakoti Peedathipathi Sri Javendra Saraswathi Swamigal. Dr. A. C. Muthiah, a renowned engineer, industrialist and philanthropist, is the Chairman of the Governing Council of the college. The college is in a 95 acre lush green Campus. It is housed in architecturally exquisite buildings with ample infrastructure such as laboratories, classrooms, libraries, sports arena, canteen, hostels, dispensary, bank etc.,

About CSE

The Department of Computer Science and Engineering was established in the year 1985. Over the past few years, the department has acquired national and international importance. This has been achieved by the collective and responsive effort of the faculty, the supporting staff and the students. The department is well equipped with excellent computing facilities, and has highly qualified faculty specialized in areas like Cloud Computing, Artificial Intelligence, Machine Learning, Data Analytics.

Chief Patron

Dr. A. C. Muthiah, Chairman

Patron

Dr. M. Sivanandham, Ph.D Secretary, SVCE Educational Trust

Prof. S. Ganesh Vaidyanathan, Principal, Sri Venkateswara College of Engineering (Autonomous), Sriperumbudur.

Convenor

Dr. R. Anitha,
Professor & HOD/CSE,
Sri Venkateswara College of
Engineering (Autonomous),
Sriperumbudur.

About the FDP

Faculty Development Program (FDP) on exploring machine learning and cybersecurity tools and trends is a specialized initiative designed to equip educators and professionals with a deep understanding of the intersection between these two crucial fields. This program aims to bridge the gap between the rapidly evolving domains machine learning (ML) of and cybersecurity by providing participants with both theoretical knowledge and practical skills. Through a series of lectures, hands-on workshops, and collaborative projects, attendees will explore how advanced machine learning techniques can enhance cybersecurity measures, such as threat detection and incident response.

Objectives

- Understand the fundamentals of machine learning and cybersecurity.
- Learn how machine learning enhances cybersecurity measures.
- Gain practical experience with ML and cybersecurity tools.
- Stay updated on the latest trends and advancements in both fields.
- Apply ML and cybersecurity concepts to real-world problems.
- Integrate new knowledge into educational and research practices.

Target Audience

- Faculty Members
- Research Scholars and Students

Important Dates

Registration Deadline: 04.08.2024

Mr. T. Ramalingam, AP/CSE 6369915299 ramalingamt@svce.ac.in

80% Attendance and Feedback are mandatory to receive an E-Certificate.

Programme Schedule

Day 1: Monday

Session: Supervised and Unsupervised Learning.

Day 2: Tuesday

Session: Explainable AI: An Interpretable Machine Learning Models and Feature Importance.

Day 3: Wednesday)

Session : Cyber Security and Machine Learning.

Day 4: Thursday

Session: Vulnerability Assessment using NESSUS.

Day 5: Friday

Session: Overview of ML and DL techniques with hands on Training.

Resource Persons

Day 1: Dr.R.C.Karpagalakshmi, Professor, Department of Computer Science and InformationTechnology, Alliance University, Bangalore.

Day 2: Dr.D. Sumathi Associate Professor, Department of Computer Science and Engineering, Alliance University, Bangalore.

Day 3: Dr.J.Lenin, Professor and Head, Department of Computer Applications, Alliance University, Bangalore.

Day 4: Dr.Rajendran T,
Associate Professor & Head,
Department of CSE (Cyber Security),
Vel Tech Rangarajan Dr. Sagunthala R&D
Institute of Science and Technology, Chennai

Day 5: Dr.M.Senbagavalli, Associate Professor, Department of Information Technology, Alliance University, Bangalore.

Session	Topic	Objective	Outcome	RBT Level
Day 1	Supervised and Unsupervised Learning.	Understand the fundamentals of machine learning and cybersecurity	Able to explore machine learning concepts in cybersecurity applications, particularly in supervised and unsupervised learning. They will gain familiarity with potential applications of these techniques in threat detection and anomaly identification	Understanding
Day 2	An Interpretable Machine Learning Models and Feature Importance.	To build and interpret machine learning models that offer transparency in their decision-making processes.	Gain practical experience in implementing Explainable AI techniques and tools, such as LIME and SHAP, to create transparent and interpretable machine learning models.	Applying
Day 3	Blockchain and Cryptocurrency	Give exposure towards one of the emerging concepts using block chain and technologies behind crypto currency	Understand the importance of trust networks and challenges in Bitcoin Technology	Understanding
Day 4	Vulnerability Assessment using NESSUS.	Gain practical experience with ML and cybersecurity tools	Gain insights into using Nessus for effective vulnerability assessments, understanding its advantages over other tools, and how it can enhance overall cybersecurity practices	Applying
Day 5	Hands-on session on supervised and unsupervised learning algorithms	Gain practical experience in implementing and evaluating supervised and unsupervised learning algorithms, applying them to real-world datasets to identify patterns, make predictions, and analyze results	Gain practical skills in implementing and evaluating supervised and unsupervised learning algorithms.	Applying, Analysing

Personal Details

Name : R.C.Karpagalakshmi

Gender : Female

Husband's Name : K.Ravivarma
Date of Birth : 23.06.1979
Marital Status : Married
Nationality : Indian

Languages Known : Tamil & English

Strengths

Self-Motivated, Ability to deal with people diplomatically, Willingness to learn.

Declaration

I hereby declare that the above furnished details are true to my knowledge and belief.

Place: Yours truly,

Date:

(Dr. R.C.KARPAGALAKSHMI)

Dr. D Sumathi is a highly accomplished academic with expertise in Artificial Intelligence, Machine Learning, and Data Science. Here's a detailed breakdown of her profile: 18 years of academic experience and currently holds the position of Associate Professor at the Alliance School of Advanced Computing, Alliance University, Bangalore. Demonstrates excellence in teaching and research, particularly in the fields of AI, Machine Learning, and Data Science. Guides students through the IEEE Computer Society Student Branch Chapter at Alliance University, fostering their interest and growth in these technical fields. Mentored a total of seven batches of research interns: three from the IEEE and four

involved in research projects at Alliance University. This highlights her dedication to nurturing future researchers. Authored two books, showcasing her in-depth knowledge and ability to translate complex concepts into understandable formats.

Regularly contributes to the academic community by serving as a reviewer for prestigious conferences and journals. This demonstrates her expertise and recognition by peers in the field. Leadership and Service Roles: Actively involved in the Centre of Excellence in High Performance Computing at Alliance University. Her contributions include organizing guest lectures, faculty development programs (FDPs), seminars, and conferences. This showcases her leadership skills and commitment to promoting research collaborations and advancements in high-performance computing. Served as a member of Department Advisory Committees and Boards of Studies at reputed engineering colleges. This indicates her valuable insights and expertise are sought after by other institutions. Professional Affiliations and Activities:

Member of the Centre of Excellence in High-Performance Computing at Alliance University. This membership signifies her active involvement in this crucial research area.

Community Engagement: Holds the position of Secretary in the Rotary Club of Global Scholars. This demonstrates her commitment to social responsibility and her dedication to organizing and participating in outreach activities that benefit the community.

Overall, Dr. D. Sumathi's is a well-rounded academic with exceptional teaching, research, and leadership qualities. Her dedication to student development, research mentorship, and community service makes her a valuable asset to Alliance University and the broader academic community

Fields of Interest

- Cyber Security
- Digital Forensics
- Communication Networks
- VANFT
- Sensor Networks

Research Grants

Received FOUR Research
Grants from MOHERI
(Ministry of Higher
Education, Research and
Innovation) - TRC, Sultanate
of Oman, for a successive
period of three
years(2017,2018,2019) and
for 2022 also, equivalent to
approximately USD 57,000.

- Smart Seaweed Farming: Support for sustainable Economy of Oman
 : Principal Investigator
- IoT Enabled Emergency Handling System for Royal Oman Police and Medical Rescue Team: Principal Investigator
- Smart Initiative for Interactive Teaching and Learning at ACT in Pervasive Platform: Member
- An efficient deep learning model for air craft safety by bird strike prevention technology at Oman civil aviation/armed airport authorities: Member

Prof. Dr. J. LENIN

Professor and Head (i/c) Computer Applications Alliance University, Banglore, India

ACADEMIC and RESEARCH EXPERIENCE: 28+ YEARS

Articles in Scopus: 17

Patents: 3

Book Chapters: 4

Book Authored: 1

Key Roles

Board of Director- Reasearch - ISACA Muscat Chapter 2022-2023

Sep 2004 - Aug 2023

- Faculty Colege of Computing, University of Technology and Applied Sciences -Al Musannah, Sultanate of Oman.
- Served as Head of the Section Networking from Oct 2010 till Sep 2022
- Took a key Leadership role in the smooth and successful functioning of the Department.
- Involved in the OAAA accreditation process
- Served as a Judge, Technical Cultural week held at Ibri College of Technology.
- Served as a Session Chair, SETS-2018 (Smart Education and Technology Symposium) for a session themed "Optimizing the IT Infrastructure" held by Ibra College of Technology.
- Served as the Convener of the Online Symposium, ACIHA- 2021 (Advances in Computational Intelligence and Heuristic Applications)
- Served as the Convener of the National Project and Poster Presentation Competition, Student Research Day 2022
- Served as Program Committee Head for National Level TECH EXPO 2023 held at University of Technology and Applied Sciences (UTAS)- Musanna
- Contributed as a Reviewer, 1st International Conference ASCIS-2022 (Advancements in Smart Computing & Information Security) organized by Marwadi University, Gujarat, India, in coordination with Springer CCIS and Gujarat Council of Science and Technology.
- Served as Jury, Robofest2022 organized by the IEEE student branch of UTAS- Al Musannah

Dr. RAJENDRAN, T

Mobile: 9941010112

E-mail: tlrajen@gmail.com

Address: No.4, Jeevanandam Main Road, Avadi, Chennai-600071, TN.

Current Position: Associate Professor and Head, Dept. of CSE(Cyber Security), Vel Tech University,

Avadi, Chennai.

Previous Institutions:

1. Associate Professor, Rajalakshmi Institute of Technology, Chennai.

- 2. Associate Professor, AI&DS Dept., Saveetha University, Chennai.
- 3. Associate Professor & Head, IT Dept, QISCET, Ongole, A.P.

4. Assistant Professor, CSE Dept., GRTIET, Tiruttani, T.N.

Total Teaching Experience: 14 years

KEY CERTIFICATIONS

□ IBM : Cyber Security: Threat Intelligence and Hunting.

□ IBM : Cloud Computing: Journey to Cloud Envisioning Your Solution.
□ ICSI : ICSI, UK "Certified Network Security Specialist (CNSS)".
□ SkillFront : Certified in "ISO/IEC 27001 Information Security Associate"

□ NPTEL : Certified with Silver Medal in "Ethical Hacking" 12 weeks course conducted

by IIT, Kharagpur.

☐ CISCO : CISCO Certified CCNA Instructor (ID: 31162592), awarded for 5 years

continuous service.

☐ IBM : Certified in Essentials of Visual Modeling with UML 2.0 and Rational

Software Architect.

Laxminarayana Polytechnic College, Dharmapuri.	Lecturer	01.06.2004 to 07.03.2005	9 Months

PATENT DETAILS

- 1. German Patent filed and published with title "A Novel IOT Enabled Accident Deterrent and Tracking System", patent no: 202023101329, June 2023.
- 2. **UK Design Patent filed and published** with title "IoT based solar powered rail track inspection trolley", Version: 14-2023, Design number: 6274978, Grant date: 21 April 2023, Registration date: 11 April 2023.
- 3. Indian Patent filed and published with title "Implementation of Artificial Intelligence and Machine Learning Approaches for Safety Management Aspects in Civil Engineering", Application No.202341007284 A, Date of filing of Application :05/02/2023, Publication Date: 10/02/2023.
- 4. **Indian Patent filed and published with title** "Systematic Approach to Analyze the Evolution of Artificial Intelligence in Smart Buildings for Energy Efficiency", Application No.202341002132 A, Date of filing of Application :11/01/2023, Publication Date: 20/01/2023.
- 5. Indian Patent filed and published with title "Deep Learning Based Medical Security System For Patient Data Protection", 202341060056, September 2023.
- 6. **UK Design Patent filed and published** with title "Wearable device for monitoring the health of mother and fetus during pregnancy", Design no 6310508, September 2023.
- 7. **UK Design Patent filed and published** with title "AI Device for Cancer Detection", 6317038, October 2023.
- 8. **UK Design Patent filed and published** with title "AI-Enabled Charging Station For Electric Vehicles", 6324117, November 2023.
- 9. **Australian Patent filed and published** with title "Artificial Intelligence Based Cooling System for Managing the Energy Efficiency", applied on 21/02/2021 IP Australia batch reference SPBI-0002485856, published in the year 2021
- 10. **Indian Patent filed and published with title** "Automated Meticulous Mitigation Of Traffic Congestion in Handling Uninterrupted Travel Of Emergency Vehicles Using RFID and IoT", filed on 22.05.2021 and published on 11.06.2021. Application No.202141022931 A,Indian Patent, link: https://ipindia.gov.in/journal-patents.htm
- 11. **Indian Patent filed and published with title** "A Real-Time Amateur Sensory Tracker with Extensive Spans Of Mitigative and Recovery Operations in Emergencies", filed on :06/08/2021and published on 13/08/2021. Application No. 202141035459 A. link: https://ipindia.gov.in/writereaddata/Portal/IPOJournal/1_5003_1/Part-1.pdf

- 12. **Indian Patent filed and published with title** "A Self-Driven and Security Platform using IoT", filed on :09/09/2021and published on 04/10/2021. Application No. 202141040850. link: https://search.ipindia.gov.in/PublicSearch/PublicationSearch/Search
- 13. **Indian Patent filed and Published** with title "Data Traffic Analysis Based IoT Detection Using Honeynet DA Classification", Date of filing of Application :24/10/2019, Publication Date: 01/11/2019 Application No.201941043184 A.

PAPER PRESENTATION DETAILS

INTERNATIONAL CONFERENCE PUBLICATIONS

- 1. M. Senbagavalli, 8th International Conference on IoT& Connected Technologies(ICIoTCT 2023), "A Novel Heart Disease Monitoring and Prediction Using Machine Learning Algorithm" held at National Institute of Technology Mizoram, Aizawl, Mizoram from 13th October to 14th October 2023.
- 2. R. Rajagopal, **M. Senbagavalli**, S. Debnath, D. K, D. K and K. S. Varun Tejas, "An Evaluation of Machine Learning Techniques for Detecting Banking Frauds," *2023 International Conference on Self Sustainable Artificial Intelligence Systems (ICSSAS)*, Erode, India, 2023, pp. 359-365.
- 3. **S. M**, S. Debnath, R. R and K. Ghildial, "Facemask Detection System using CNN Model," 2023 International Conference on Recent Advances in Science and Engineering Technology (ICRASET), B G NAGARA, India, 2023, pp. 1-6, doi: 10.1109/ICRASET59632.2023.10420345.
- 4. Saswati Debnath, **Senbagavalli M** & Rajagopal R, Lip Geometry feature-based Visual Digital Recognition in 8th international conference on smart trends in computing and communications.
- 5. **Senbagavalli M** and Sanjeev kumar singh,"Improving patient health in smart health care monitoring system using IoT" in 2022 International Conference on Futuristic Technologies (INCOFT), in 2022, International Conference on Futuristic Technologies (INCOFT) during 25t h & 27t h, November 2022.
- 6. **Senbagavalli M,** Saswati Debnath and Ramalakshi K,"Secret key verification techniques for graphical password authentication system to avoid shoulder surfing" at International Conference on Power Electronics & Sustainable Development (ICPESD) organized by National Institute of Technology, Jamshedpur from 23rd-24th April 2022.
- 7. **Saswati Debnath,Ramalakshmi K and Senbagavalli M** 2021, presented paper entitled "Multimodal Authentication System based on Audio -Visual data: A Review" in 2022 International Conference for Advancement in Technology (ICONAT) during 21s t & 22 n d January 2022,RIT Rajarambapu Institute of technology,IEEE Bombay Section.
- 8. **Alen Charuvila Saji, Ramalakshmi K, Dr.Senbagavalli.M** 2021, presented a paper entitled "Hand Sign Recognition Using YOLOV5", in the International Conference on Emerging Trends in Communication and Networking (ETCAN'21) held from 22.10.2021 to 23.10.2021 at Kongunadu College of Engineering and Technology (Autonomous), Trichy, Tamilnadu, India.
- 9. **Senbagavalli, M** 2016, 'Evaluating Mental Health Workload among Employee using Artificial neural network', International Conference on Advances in Emerging Technology(ICAET), Jaya Engineering College, Chennai.
- 10. **Senbagavalli, M** 2016, 'Offloading Android Applications to the Cloud without Customizing Android', International Conference on Emerging Technology (ICERT), Sree Sastha College of Engineering, Chennai.

- 11. **Senbagavalli, M** &Tholkappia Arasu,2015 'Diligence shared provisional sweeping Authority for cloud backup services of personal storage',2ndInternational Conference TITCON-2015,AVS College of Engineering,Salem.
- 12. **Senbagavalli, M** & Tholkappia Arasu, 2015 'Optimization of Human Liver Cancer using Fuzzy Inferrence for Micro Array Gene Data', International Electrical Electronics and Computer Engineering, Vivekanandha College for Women, Thiruchengode.
- 13. **Senbagavalli, M** & Tholkappia Arasu, G 2014, 'An Efficient Anonymization approach for Handling Structural Re-identification of Sensitive Data', International Conference on Trends in Technology for Convergence (TITCON 2014), A.V.S Engineering College, Salem.
- 14. **Senbagavalli, M** & Tholkappia Arasu, G 2013, 'A Survey on Opinion Mining Using Clustering Algorithms', International Conference on Sustainable Approaches for Green Computing, Economy & Environment (SAGCEE13) 9-11, VMKV Engineering College, Salem.
- 15. **Senbagavalli, M** &Tholkappia Arasu,2013 'A Survey on Web Opinion Mining Using Clustering Algorithms', International Conference ICACT-2013,JKKNattaraja College of Engineering and Technology.

NATIONAL CONFERENCE PUBLICATIONS

- 1. Presented a paper titled "A Survey on Web Caching Techniques" in AICTE Sponsered 6Th National Conference on "Innovative Research in Science, Engineering and Management", Organized by PSV College of Engineering and Technology on 2nd and 3rd August, 2021.
- 2. Presented a paper titled "A Study of Optimization Algorithms in Machine Learning" in AICTE Sponsered 6th National Conference on "Innovative Research in Science, Engineering and Management", Organized by PSV College of Engineering and Technology on 2nd and 3rd August, 2021.
- 3. Presented a paper titled "Algorithms and Applications of Sentiment Analysis" in National Conference on "Recent trends in Computer Science-NCRTCS'19" at kamadhenu college of Arts and Science-, Dharmapuri on 08.02.2019.
- 4. Presented a paper titled "Opinion mining of Health Data for heart disease using machine learning Approach" in NCIRSEM'16, organized by PSV College of Engineering and Technology, April'2016.
- 5. Presented a paper titled "Privacy preservation of social network data against structural attacks using k-auto restructure" in ICET2014, organized by Paavai Engineering College, Feb'2014.
- 6. Presented a paper titled "K-Auto restructure for Privacy Management of Social Network Data against Multiple Structural Attacks" in TITCON'2014, organized by AVS Engineering College, March'2014.
- 7. Presented a paper titled "A Survey On Opinion Mining Using Clustering Algorithms" in SAGCEE2013, organized by VMKV Engineering College, Dec'2013.
- 8. Presented a paper titled "Spam Mail Filtering Practices is using diverse decision tree classifiers using data mining approach" organized by Shreenivasa Engineering College, Feb'2013.
- 9. Presented a paper titled "Scalable Web Mining Architecture" in XETA-2K11, organized by Jayam College of Engg. & Technology, Dharmapuri, March'2011.
- 10. Presented a paper titled "An Agent Based Intelligent Architecture for Web opinions and social interactions with clustering" in ETCA-2k12, organized by PSV college of Engineering and Technology, May'2011.

- 11. Presented a paper titled "Face Recognition using Laplacian Faces" in CODECLAVE 9.2 organized by Government College of Engineering, salem-11 on 27th February-2009.
- 12. Presented a paper titled "Intelligent Traffic Monitoring System" in XETA-2K8 organized by Jayam College of Engg& Technology, Dharmapuri During 4th and 5th April-2008.
- 13. Presented a paper titled "Network Security-Kerberos" in XETA-2K7 organized by Jayam College of Engg& Technology, Dharmapuri during 4th and 5th April-2007.

Sample Reviewed Papers in Journal:

- 1. Paper titled "A Zone Routing Protocol incorporated with Sleep Scheduling for MANETs" -Manuscript Number: AIHC-D-19-01357 in Journal of Ambient Intelligence and Humanized Computing, Editor Name: Patricia Melin, AuthorName: ShanthyR, Sona College of Technology, Salem.
- 2. Paper titled Low Cost Covid-19 preliminary Diagnosis utilizing cough samples and keenly intellective deep learning approaches Alexandria Engineering Journal, Alexandria Engineering Journal Impact Factor: 3.696, Editor Name:Prof.V.Sudaroli,Asst. Professor,PESUniversity,Bangalore.

Day 1: Supervised and Unsupervised Learning.

OBJECTIVES:

The objective of this session is to Understand the fundamentals of machine learning and cybersecurity

Cybersecurity: Cybersecurity refers to the practice of protecting systems, networks, and data from digital attacks, unauthorized access, or damage. It involves a range of technologies, processes, and practices designed to safeguard sensitive information and ensure its confidentiality, integrity, and availability.

Machine Learning: Machine Learning is a subset of artificial intelligence where algorithms learn from data to make predictions or decisions without being explicitly programmed. It enables systems to improve their performance over time based on experience.

INSIGHTS:

The event started with the introduction of cybersecurity and machine learning by Dr.R.Anitha HoD/CSE, she welcomed our chief guest Dr.R.C.Karpagalakshmi, Professor, Department of Computer Science and Information Technology, Alliance College of Engineering and Design, Alliance University, Bangalore. The speaker started the session by providing an overview of cybersecurity, emphasizing its importance in protecting systems, networks, and data from digital threats. She covered the basics of cybersecurity, ensuring everyone understood the foundational concepts. She then delved into more advanced topics, offering deep insights into supervised and unsupervised learning techniques, particularly focusing on their applications in detecting and mitigating cyber threats.

OUTCOME:

The benefit of the program is that participants will be able to explore machine learning concepts in cybersecurity applications, particularly in supervised and unsupervised learning. They will gain familiarity with potential applications of these techniques in threat detection and anomaly identification, as well as insights into future research directions in the intersection of machine learning and cybersecurity.

Day 4: Vulnerability Assessment using NESSUS

OBJECTIVES:

The objective of the session is to Gain practical experience with ML and cybersecurity tools

NESSUS - Nessus is a widely-used vulnerability assessment tool that scans systems for security weaknesses, misconfigurations, and potential threats. It helps organizations identify and address vulnerabilities to improve their overall security posture.

INSIGHTS:

The event started with the introduction of IoT by Dr.R.Anitha HoD/CSE, she welcomed our chief guest Dr. T. Rajendiran, Associate Professor & Head, Department of CSE (Cyber Security), Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Chennai. With this, the speaker started the session by providing a framework for a preliminary evaluation of vulnerability assessments using Nessus. He mapped various Nessus scanning capabilities to case studies, helping to visualize how Nessus addresses and compares with other vulnerability assessment tools. Nessus will continue to evolve, integrating advanced features and updates to improve its effectiveness. However, organizations must stay vigilant about emerging vulnerabilities and ensure their security measures are up-to-date. Despite these challenges, the future of vulnerability assessment tools like Nessus is promising, with ongoing improvements enhancing their reliability and functionality.

OUTCOME:

Benefit of the program is that participants will gain insights into using Nessus for effective vulnerability assessments, understanding its advantages over other tools, and how it can enhance overall cybersecurity practices. They will also recognize how continuous advancements in Nessus contribute to better protection against emerging threats.

Day 3: Blockchain and Cryptocurrency

OBJECTIVES:

The objective of the session is to give exposure towards one of the emerging concepts using block chain and technologies behind crypto currency. Also to give insights on how the blockchain technology may affect the wider social, economic, political, cultural domain.

Blockchain and Cryptocurrency - A peer-to-peer network's entire transactions are recorded in a blockchain, which is a decentralized ledger. Participants can confirm transactions using this technology without the requirement for a central clearing organization.

INSIGHTS:

The event started with the introduction of IoT by Dr.R. Anitha HoD/CSE, she welcomed our chief guest Dr.J. Lenin, Professor and Head, Department of Computer Applications, School of Advance Computing, Alliance University, Bangalore. With this, the Speaker started the session about blockchain usage, one can securely transfer money to another person without going through a bank or other financial institution. Blockchain technology is frequently referred to as distributed ledger technology in the financial services sector. Also, the speaker explained about public blockchains, private blockchains, consortium blockchains and hybrid blockchains. Blockchain aims to make it possible to share and record digital information without editing it.

OUTCOME:

The participants will be able to understand the importance of trust networks and challenges in Bitcoin Technology. Additionally, it raises awareness of Blockchain technology and the ways in which it can be applied to the processing of cryptocurrency transactions on a public ledger.

Day 5: Hands-on session on supervised and unsupervised learning algorithms.

OBJECTIVES:

The objective of this session aims to gain practical experience in implementing and evaluating supervised and unsupervised learning algorithms, applying them to real-world datasets to identify patterns, make predictions, and analyze results. They will develop skills in using various tools and techniques to address different types of data analysis challenges.

Machine Learning tools - Machine learning tools are software platforms that facilitate the development, training, and deployment of machine learning models. They provide functionalities for data preprocessing, model building, evaluation, and optimization, helping data scientists and analysts to efficiently create predictive and analytical models.

INSIGHTS:

The event started with the introduction of IoT by Dr.R. Anitha HoD/CSE, she welcomed our chief guest Dr.M.Senbagavalli, Associate Professor, Department of Information Technology, Alliance College of Engineering and Design, Alliance University, Bangalore. With this, the speaker started the session on hands-on experience with supervised and unsupervised learning algorithms. Participants will explore how these algorithms can be used to build models that make predictions and uncover patterns in data. Real-world applications include separating spam from legitimate emails, correcting spelling and grammar errors, and analyzing data for insights. The session will provide practical experience in implementing these algorithms, demonstrating their effectiveness in various data-driven tasks.

OUTCOME:

This event helps the Participants will gain practical skills in implementing and evaluating supervised and unsupervised learning algorithms. They will be able to apply these algorithms to real-world datasets, interpret results, and understand their effectiveness in solving various data analysis challenges.

Day 2: Interpretable Machine Learning Models and Feature Importance

OBJECTIVES:

The objective of this session will learn how to build and interpret machine learning models that offer transparency in their decision-making processes. They will gain skills in assessing feature importance to understand the impact of various input variables on model predictions, enabling them to create models that are both accurate and understandable.

Explainable AI - Explainable AI refers to methods and techniques that make the outputs and decision-making processes of machine learning models transparent and understandable to humans. It aims to provide insights into how models arrive at their predictions or decisions, enhancing trust and accountability in AI systems.

INSIGHTS:

The event started with the introduction of Explainable AI by Dr.R.Anitha HoD/CSE, she welcomed our chief guest Dr.D. Sumathi, Associate Professor, Department of Computer Science and Engineering, Alliance College of Engineering and Design, Alliance University, Bangalore. With this, the speaker started the session on handling Explainable AI tools and techniques, such as LIME, SHAP, and interpretable model frameworks. She extended her session to cover how to design, build, and implement AI models that offer transparency in their decision-making processes. Additionally, the session included practical approaches for evaluating model explanations and ensuring that AI systems are understandable and trustworthy for users, with a focus on using industry best practices to achieve clear and actionable insights from AI models.

OUTCOME:

This event helps the participants will gain practical experience in implementing Explainable AI techniques and tools, such as LIME and SHAP, to create transparent and interpretable machine learning models. They will be able to design and evaluate AI models that provide clear insights into decision-making processes, enhancing the trustworthiness and usability of AI systems.

Participant Summary

Total Number of External Participants	317
Total Number of Internal Participants	52
Total Number of Female Participants	144
Total Number of Male Participants	225

EVENT PHOTOGRAPHS

Day 1: Supervised and Unsupervised Learning.

Day 2: Interpretable Machine Learning Models and Feature Importance

Day 3: Blockchain and Cryptocurrency

Day 4: Vulnerability Assessment using NESSUS

Day 5: Hands-on session on supervised and unsupervised learning algorithms.

FEEDBACK: DAY-1

Timestamp	Name of the Participant	Designation	Department	Name of the Institution	Mobile Number	E-Mail ID	How would you rate the speakers?	Were the presentation materials and resources helpful?	What were some key takeaways or insights you gained from the program?	What aspects of the program would you like to see improved or changed?	Any additional comments or suggestions ?

8-9-2024 20:02:16 Dr. Shaik Khaleel Ahamed	Associate Professor	Computer Science and Engineering	Methodist College of Engineering & Technology	9949182786	khaleelska@outlook.com	Very Excellent	Yes	It was effective	Improved	No
8-9-2024 20:03:30 Reni Hena Helan R	Assistant Professor	CSE	Dhanalakshmi College of Engineering	9940580275	renihenahelen.r@dce.edu.in	Excellent	Yes	Deep Learning techniques	Nothing specific	Session was good
8-9-2024 20:03:58 V Thirumani Thangam	Assistant Professor	CSE	New Prince Shri Bhavani College of Engineering and Technology	9047107427	thangam.v@newprinceshribhavani.com	Average	Yes	Gained	Improved	Good one

Autonomous Institution, Affiliated to Anna University, Chennai Approved by the AICTE, Accredited by NAAC

Certificate of Participation

This is to certify that Dr. / Mr. / Ms. S.VIMALATHITHAN - ASSOCIATE PROFESSOR

MOHAMED SATHAK A.J. COLLEGE OF ENGINEERING

has participated in the Five Day FDP on "Exploring Machine Learning Cyber Security: Tools and Trends" organized by the Department of Computer Science and Engineering, Sri Venkateswara College of Engineering from 05-08-2024 to 09-08-2024.

Mr. E. Raghuvaran, AP-CSE Coordinator

Dr. R. Anitha, HoD-CSE Convener

Principal

Harroh

5/5 Star Rated Innovation Cell

Top Performer

Recognized Incubation Center

Certified Organization

Accreditations

Top Ranked Affiliated Institution in Tamil Nadu
