ELECTRONICS & COMMUNICATIONS  
ENGINEERING ASSOCIATION

## Profile:

**A.Venkatesan** has more than 18 years experience in specialized field of Hazardous Area Instrumentation in a total of 25 years experience in the Industry. Currently working in Eaton MTL Instruments Pvt. Ltd., Chennai.

## Educational qualifications and achievements

He is a first class Engineering Degree Holder in the Branch of Electronics and Communication Engineering from Venkateswara College of Engineering affiliated to the University of Madras. Graduated in the year 1991 he started his career in the process industry and has worked in various process industries like Chemical, Water treatment, Fire detection and protection before getting into Electronics and Instrumentation field.

Venkatesan was a Corporate Trainer for Customers and End users on Intrinsic Safety principles and practices.

He got trained at BASEEFA 2001, Buxton, United Kingdom ( British Approval Service for Electrical Equipment in Flammable Atmospheres) and also at the parent company Measurement Technology Limited., PLC, Luton, United Kingdom.

Venkatesan identified the need for training of engineers in the basics of Explosion protection techniques and frequent updating as the techniques develop. He is a subject matter expert in creating awareness and knowledge in explosion protection method and IS certification related matters. He has been regularly invited twice in a year to the parent company at UK to keep him abreast of the latest development in this field.

He gets regular updates on Baseefa by their News Mailing Service. He was invited and has conducted various training programmes for the Instrumentation and Control Industry some of which include the following:

1. Session on Introduction to Design of Intrinsically Safe Systems at ISA India Region at Mumbai.
2. Session on Earthing/Grounding/Shielding of Instrumentation and Protection of Instrumentation in Hazardous Areas for BHEL Trichy.
3. Session on “Design and Advances of Intrinsically Safe Systems” at National Symposium on Intelligent Measurement & Control at MIT, Madras.
