Greetings
from SVCE,
Dear
Participants,
Thank you for registering in One Day STTP on
"BlockChain Technology and Emerging Trends in
Information Security"
Organised by Department of ECE, SVCE on 15th May, 2020.
Please find below the webinar link for
Session I and II.
SESSION
I:
TOPIC: INFORMATION SECURITY TRENDS
TIME: 10.30 AM to 12.00 PM (IST)
EXPERT: DR.CHESTER REBEIRO, ASSISTANT PROFESSOR, IIT MADRAS.
Webinar
Link: https://meet.google.com/bjo-udxv-cfh
Session
II:
TOPIC:
BLOCKCHAIN TECHNOLOGY AND IoT
TIME: 1.30 - 3.00 PM (IST)
EXPERT: MR. CHEZHYAN PANNEERSELVAM, DIRECTOR & CO-FOUNDER, VLINDER LABS PVT. LTD.,
Webinar
Link: https://meet.google.com/faw-fzwb-jdu

Important Note:
1. Participants are requested to keep your Mike in mute mode and Switch OFF the video.
2. Participants can use the Chat box for posting their doubts.
3. The link for feedback will be shared in the chat box at the end of the session. Participants are requested to fill the feedback form before 6pm on 15.05.2020.
4. E-Certificates will be issued to the registered participants whose feedback is submitted successfully.
5. Kindly join 15
min prior to the schedule.
6. For any queries, the following whatsapp group link may be used.
Open this link to join in WhatsApp Group: https://chat.whatsapp.com/INcTlySQW5HJ0JvbMTDNtM
Participants are requested to stay online throughout the session.
Regards,
STTP Coordinators,
ECE,
SVCE.

Dr. Chester Rebeiro

Affiliation
Department of Computer Science and Engineering

Indian Institute of Technology Madras

Chennai, Tamil Nadu, India

Publication Topics
cryptography, embedded systems, Internet of Things, Linux, circuit optimization, client-server systems, computer network security, data structures, electronic design automation, electronic money, hardware-software co-design, integrated circuit design, logic design, operating system kernels, program compilers, program verification, quality of service, security of data, system monitoring, field programmable gate arrays, cache storage, public key cryptography, multiplying circuits, private key cryptography, table lookup

Biography
Chester Rebeiro received the Ph.D. degree from the Indian Institute of Technology Kharagpur, Kharagpur, India.,

He was a Technical Staff Member with CDAC, Bengaluru, India.

He was a Post-Doctoral Scientist with Columbia University, New York, NY, USA.

He is an Assistant Professor with the Department Computer Science and Engineering, Indian Institute of Technology Madras, Chennai, India.

His current research interests include hardware security, operating systems security, and applied cryptography.

-
  Director Of Engineering - Blockchain & IoT
  vlinder.io
  Aug 2018 – Present1 year 10 months
  Vlinder House, Bangalore

  Working on Next Generation Technologies to tie Digital and Physical Assets with primary focus on fighting Fraud against counterfeit items.

Technical Program Manager
Mindteck
Jun 2012 – Aug 20186 years 3 months
Bengaluru Area, India

As a Program Manager, handling multiple embedded hardware, firmware, and system level projects for US, EMEA, APAC and India customers. Managed multiple projects in different mode (Fixed cost, Time and Material and Staff augmentation mode). Few consumer and industrial products designed and developed are:
• Smart Grid project for Utility involving Smart Meters, Data Concentrating Unit and Meter Data Management Software
• Smart Light with Sun Rise and Sun Set simulation, DAB+FM, MP3 with SD Card and USB Play
• RF retrofitted Radio Module for water meters including design and production setup for 1M+ volumes
• Modular Laptop with USB Type 'C' interfaces – Has various modules – Screen Module, Camera Module, Battery Module, Hub Module and Compute Module
• Complete product design for Industrial controller and GC products including hardware, firmware and mechanical design
• Hardware design for USB Protocol Analyzer – hardware design with COM Express module, Stratix 4 FPGA, and DDR3 SODIMM
• Modbus firmware projects for Gas Analyzers – Firmware development for multiple legacy Gas Analyzers.
• Continuous Emission Monitoring system with PC Application to store all analyzer data
• POS device based on TI Sitara – AM3354 processor

Key Achievements
• Handling multiple Clients, Projects, Teams and Vendors – Project Managers, Leads, Hardware engineers, Firmware Engineers, Mechanical engineers, Layout engineers and Technicians
• Collaborate with management team and successfully achieve and maintain various management objectives – GM > 40%, SV < 8%, CMMI Certification, CSAT > 8
• Able to successfully Deliver keeping Scope, Time and Cost under control
• Effective Team Management – Able to maintain attrition less than 5% during my execution by effectively applying PMP skills
• Effective Vendor Management – Right from evaluation, engagement and control – Lead to successful delivery

Project Manager
Tata Elxsi
Sep 2005 – Aug 20116 years
Bangalore

As a project Manager and Senior Specialist, handed multiple embedded hardware, firmware, and system level projects for Consumer electronics, Proof of Concept for IP Set top Box, Test Automation and High Speed test suite development. Key projects during this time handled by me are;
• Active dial watch based on STM32L152 – POC design with team size of 2 engineers

• DVBS Set top box Test Jig with NI LabVIEW and TestStand – High Speed test automation suite development with team size of 3 engineers
• Design Qualification suite for Set top box with NI LabVIEW – RF front end test automation for the DVB-S2 set top box
• Production Test Software for DVBS set top box – Architected the Production test suite with NO-OS firmware provided by Broadcom for the BCM7335 High Definition PVR Satellite SoC
• IP Set top box based on Davinci DM6446 processor - Tata Elxsi IP set-top box (IPSTB) is a dedicated computing device that serves as an interface between a television set and a broadband network
• IP Set top box based on MPC5200 with DM642 - The design is based on dual processor architecture Host MPC5200 and DSP DM642

Key Achievements
• Twice achieved "Extra mile award"
o Timely IP Set top box hardware development
o Completing the DVB S2 Satellite set top box factory integration in co-ordination with hardware designers, Broadcom FAEs, Conditional Access provider, Software development team and production team
• Designed and developed high speed test automation suite for DVB-S2 set top box manufacturing plan (production capacity 1 million units / year) with low re-try rate of 0.5%

Scientist
Gas Turbine Research Establishment (DRDO)
1998 – 20057 years
Bangaon Area, India

• Design, Development and testing of controller modules – LVDT, Pressure and Resolver
• Engine Controller Integration testing
• EMI/EMC Testing
• Video Streaming gateway for Wi-Fi networks
• Camera Trap
• Single board computer (SBC) and VPX backplane
• Electronic Interlocking System architecture design
