Report on Paper Presentation Seminar

The Department of Electronics and Communication Engineering in association with Institute of Electronics and Telecommunication Engineers (IETE) , organised a seminar on “How to Present a Technical Paper” on 30th of August . The Seminar began with the introduction of the session by Assistant Professor Ms.Menaka followed by the lecture on the presentation of a technical paper by Professor Dr.Kumaratharan where he stressed on the importance of presenting a technical paper through his well-structured publication in IEEE.

The audience mainly consisted of second year and third year students who are a part of IETE and Robotics and Artificial Intelligence Club (RAIC).

Prof.Dr.Kumaratharan explained in detail about presenting a paper by showing examples to the students.

The session was very interactive as they were guided on what all a technical paper should and should not contain . The students put forth questions and received clear explanation from Professor. The session ended with a positive feedback from the students. The session as a whole was beneficial for students by providing a path to develop their research knowledge areas.
