

Report on Spark 2 Science -UI Design Competition

Event Date: 11.10.24 and 12.10.24

Mode: Online

The Spark 2 Science UI Design Competition, organized by the SVCE Science Club under the Web Development domain, aimed to encourage creativity and technical skills among participants. This event focused on designing innovative and user-friendly UI concepts, allowing students to showcase their web development skills. The competition required participants to submit their design and code files through a Google Form. The event encouraged participants to create unique and user-friendly UI designs, promoting creativity and technical precision in web development.

Evaluation Metrics:

Participants were assessed based on the following evaluation metrics:

1. Unique Concept: /10
2. Animation/Transition: /10
3. Typography (Font Readability): /5
4. Spacing: /5
5. CSS Styling: /10
6. User Friendliness: /10

A total of 20 students participated in the competition.

1. Winner: Tamizhselvan, CSE IV
2. Runner: Akeel Ahamed, CSE III

Theory of Relativity Albert Einstein's Theory of Relativity changed our understanding of space and time. It reshaped our view of the universe and led to the development of nuclear energy. 4. Discovery of DNA Structure In 1953, James Watson and Francis Crick uncovered the DNA double helix structure. This discovery laid the foundation for modern genetics and molecular biology. |
| 10/11/2024 23:11:37 | Shruthi T | 9442637368 | III | Computer Science Engineering | https://bigbangtheory00 | https://drive.google.com/ | EVOLUTION OF LIFE FROM BIG BANG The universe began with the Big Bang, a massive explosion of energy and matter. It marked the start of the cosmic journey. However, the era ended with the Permian-Triassic extinction (around 252 million years ago), the largest mass extinction in Earth's history. This era ended with the Cretaceous-Paleogene (K-Pg) extinction event, possibly caused by an asteroid impact. During this time, Earth's climate fluctuated, with several ice ages shaping ecosystems and species. Cambrian Explosion (541 million years ago): Rapid diversification of life. Permian-Triassic Extinction (252 million years ago): The largest mass extinction, allowing the rise of dinosaurs. Cretaceous-Paleogene Extinction (66 million years ago): Ended the reign of dinosaurs, allowing mammals to flourish. From the cosmic events of the Big Bang to the development of life on Earth, evolution is a continuous process. Here i list outs the top 7 wonderful innovation in detailed and more innovation in grid using javascript. |
